

4ASSET-MANAGEMENT LAUNCHES MARKET VECTORS™ POLAND INDICES

Index provides investors with focused exposure to the Polish equity markets

Frankfurt, October 16, 2009. Today 4asset-management launched the Market Vectors Poland indices (Price index ticker: MVPLND; Total Return ticker: VEMVPLND). These indices cover either some of the largest and most liquid companies listed and head-quartered in Poland or companies generating the majority of their revenues in Poland. Both indices are calculated in real-time on the S-BOX platform.

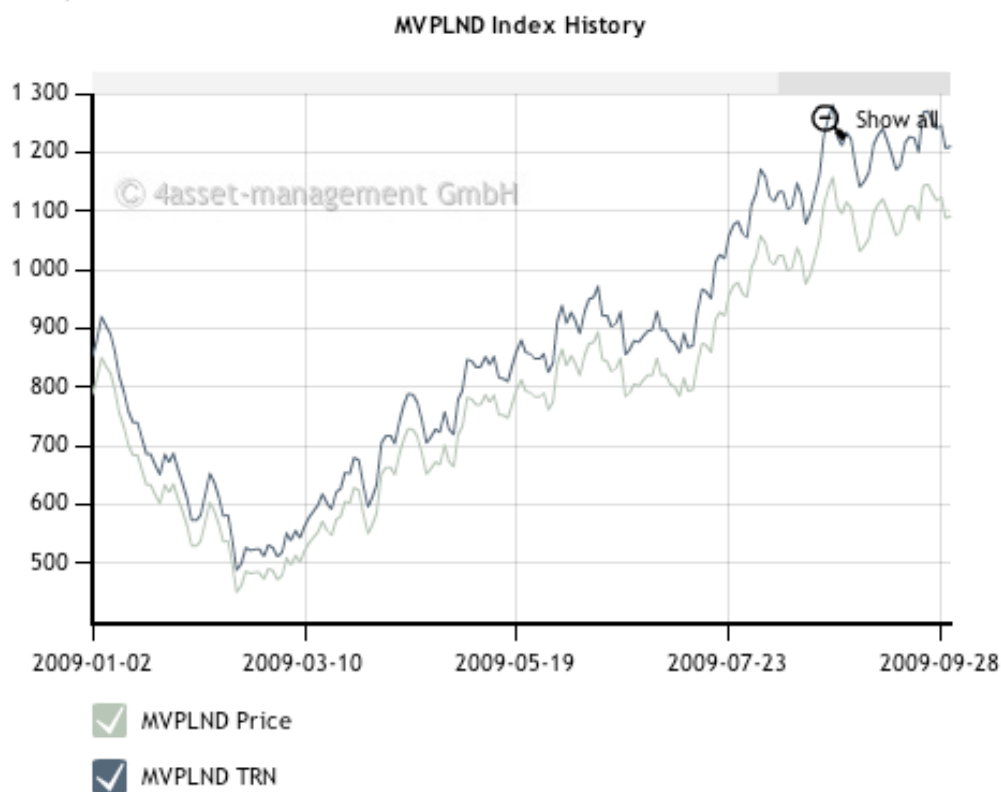

Poland is one of the major players in central Europe. The country has made a successful transition from centrally-planned to a market-based economy. The Polish domestic economy is largely driven by resilient local consumption trends.

The indices are comprised of currently 26 Polish companies that meet size, liquidity and tradability requirements. The indices are free float-adjusted and modified market cap-weighted with no single stock accounting for more than 8.0% of the index. Currently the weighted average market capitalisation of the indices' constituents is \$5.252 million.

The indices provide a well-diversified exposure with Large-Cap companies representing 35.8% of the index, Mid-Cap companies 44.1% and Small-Cap companies 20.1%. The top five companies in the index, by weight are: Bank Pekao (8.6%), PKO Bank Polski (8.2%), KGHM Polska Miedz (7.3%), Telekomunikacja Polska (6.8%) and PKN Orlen (5.9%). A complete list of holdings is provided below. (all data as of October 14, 2009).
